

DIRECTOR OF CENTRAL INTELLIGENCE  
**Security Committee**

SECOM-D-115

31 March 1982

MEMORANDUM FOR: Director, Office of Technical Services

FROM:

  
Chairman

25X1

SUBJECT: Security Committee Staff Study of ACM Coverage on  
Capitol Hill

1. As the result of a question raised to the DDCI by the National Security Agency regarding a false perception held by them that all Capitol Hill ACM coverage has been furnished by CIA as a cause of common concern, the DDCI has requested that a study be conducted under the auspices of the Security Committee to determine the depth of the problem and to recommend appropriate action.

2. In order to accomplish this tasking, it is necessary that appropriate testing be conducted at various areas on Capitol Hill in order to determine whether or not it is possible to transmit from certain of the Hearing rooms. Therefore, the assistance of your office in utilizing the appropriate transmission devices would be greatly appreciated. It is my understanding that the Chief of your AOB has volunteered to make himself available to assist with this testing if you approve.  of my staff will be coordinating the effort assisted by technical representatives from CIA and NSA as well as the Legislative Liaison officer assigned to the IC Staff.
